The 10 Cities That Are Leading The Way In Urban Sustainability

Sustainable cities, urban sustainability, or eco-city is a city designed with consideration for social, economic, environmental impact, and resilient habitat for existing populations, without compromising the ability of future generations to experience the same. These cities are inhabited by people whom are dedicated towards minimization of required inputs of energy, water, food, waste, output of heat, air pollution - CO₂, methane, and water pollution. Richard Register first coined the term "ec
